

SCHOOL ENERGY COALITION

Please join us at one of our upcoming SEC Fall Forums, focused on receiving funding reserved for your school district or county office through Proposition 39. These are real dollars that may be reinvested in facilities or used for other school priorities.

Learn: If you are concerned or feel challenged with regard to Proposition 39, this forum is for you. Learn from your colleagues who have done it. You will hear how different school districts successfully navigated this process.

Inform: The CEC is planning to take input for substantive changes to the Proposition 39 process, but they need to hear from schools. Attend this forum and impact the recommendations being made to CEC. CEC will begin the process before the end of the year to review how or if the CEC should change their procedure for processing the Energy Expenditure Plans (EEPs).

Discuss: We will discuss what specific changes need to occur to the program and hear more about what is being contemplated.

Every LEA in California has Proposition 39 funding available for individual energy retrofits. This funding is simply waiting for you to access it through the California Energy Commission's (CEC) process. The earlier you move forward with your Energy Expenditure Plan the closer you will be to achieving the savings from these projects that are ongoing and can be used on other school priorities.

Don't miss this opportunity to be better prepared to move forward with a successful Energy Expenditure Plan.

The School Energy Coalition (SEC) is an advocacy organization focused on K-14 school projects that create utility savings. SEC has successfully fought for increased funding and program flexibility for school energy projects and has been fully involved in focusing Proposition 39 funding on schools and its ongoing implementation statewide.

SEC Fall Forums

Discussion Topics:

- What's on the Horizon for Prop 39 Program and Funding
- Utility Report on Proposition 39 and Title 24
- Lunch – California Conservation Corps (CCC)
- Hiring an Energy Manager and Training for Employees
- Solar and Proposition 39
- CEC Process for Substantive Changes for Prop 39: What Does the CEC Need to Hear?
