

School Energy Coalition Fall Forums

Use Every Dollar of Prop 39 Funding: Final Allocations, Audits and Projected Savings

Our SEC Fall Forums are focused on Proposition 39 and beyond. Apply for every dollar of this important program and execute projects that provide a return on investment to the state and to your district. The fifth year of the program may provide more dollars than are accounted for in current plans and many Local Education Agencies (LEA) will be making amendments to plans to allow every dollar to be spent.

SEC worked successfully this year to ensure that hundreds of millions of dollars remaining in the Proposition 39 program will continue to go to K-12 school energy efficiency and renewable projects – and into revolving low- and no-interest loans at the California Energy Commission specifically for schools seeking more funding for energy efficiency and renewable energy. Come to the Forums and find out about what is being considered and the important criteria for accessing this funding.

Bottom Line: Use every dollar that is being made available to you. Talk to the experts that can explain a path forward for any school, large or small, that will generate savings to your district and will provide other maintenance, safety, and academic benefits for your students. Hear from other schools that have successfully planned and are executing these projects and installations. Be ready for audits and get results through tracking and commissioning.

Attendees will hear from experts and program administrators on what is available and when, how to plan for every last dollar, know every impending deadline and be prepared to apply for more funding that becomes available from remaining funds.

Don't miss this session! Be part of the discussion and register today!

Topics to Include:

- Proposition 39 Budget and New Program Updates
- District Case Studies
- Rate and Rebate Information
- Legislative Actions and Advocacy
- Costs Associated with State Energy Actions
- Zero Net Energy
- Forecast on Water

Logistics:

Registration begins at 8:00 a.m.

Forums will be held from 8:30 a.m. to 3:00 p.m.

Continental breakfast and lunch are included.

The School Energy Coalition (SEC) is an advocacy organization focused on best practices for K-14 school projects to save energy and general fund dollars. SEC led the fight to ensure Proposition 39 funding was focused on K-14 school energy efficiency/renewable projects and played a critical role in extending the program indefinitely. SEC continues to represent schools statewide in discussions on energy and water conservation, infrastructure, as well as Green Building Codes and Title 24.

SEC FALL FORUM REGISTRATION FORM

YES! Please register me for the SEC Fall Forum! Please Select Location:

- Los Angeles County Office of Education:** September 19, 2017
 Mack Powell Event Center Sacramento: September 22, 2017
