

# SEC FALL FORUM REGISTRATION

**YES!** Please register me for the SEC Fall Forum in San Diego on September 20, 2018

Name (as you would like it to appear on your name tag)

Entity

Address

City/State/Zip

Phone

Fax

Email Address

Special Needs

## Registration Fee and Payment Method

SEC Member District, COE or CCD	\$175
SEC Non Member District, COE or CCD	\$250
SEC Member Associate	\$199
SEC Non-Member Associate	\$399

Check #: \_\_\_\_\_

P.O. # \_\_\_\_\_

Contact Samantha if you wish to use a credit card (916.441.3300).

## Cancellation policy:

Cancellations must be received in writing. Fax to 916.441.3893 or email spriddy@m-w-h.com.

Received by September 3, 2018: \_\_\_\_\_ Full Refund

Received by September 10, 2018: \_\_\_\_\_ \$75

Received September 11, 2018 and thereafter: \_\_\_\_\_ No Refund

Please fax (916.441.3893) or email (spriddy@m-w-h.com) this registration form and bring your check or PO to the event, or mail to:

### Resilient School

## Infrastructure and Microgrids: Managing Your School's Energy Assets

September 20, 2018

10620 TREENA STREET | SAN DIEGO

# SCHOOL ENERGY COALITION FALL FORUM

## RESILIENT SCHOOL INFRASTRUCTURE AND MICROGRIDS: MANAGING YOUR SCHOOL'S ENERGY ASSETS

California's fire season has begun already this year and schools are on the front line. Local Education Agencies (LEA) in California must become more resilient with regard to natural disasters, power outages and electricity rate increases.

Our Fall Forum will be focused on showing you how to better protect, manage and plan your energy usage and the investments you have made or will be making with Proposition 39. Schools must begin to think of their energy assets in a systemic way in order to provide protection and perhaps even a future revenue source.

SEC will gather experts in the areas of energy storage, clean transportation and microgrids to share the latest information that will assist you to coordinate and plan your energy infrastructure on site. We will continue to hear from State Agency representatives to ensure that LEAs are getting the latest and best information on the Proposition 39 program and future state actions.

In addition, you will hear from public school district members who will present school case studies to help attendees learn more about how to get the most out of state energy and water programs and successfully navigate the accountability and audit processes.

As always, we will also collect your critical feedback to communicate the school facility energy needs of LEAs to representatives of the State Legislature to request funding under the Clean Energy Jobs Creation Fund for energy efficiency upgrades, renewable generation and battery storage and Zero Net Energy (ZNE) school facilities.

**DON'T MISS THIS EVENT!**

## WHAT IS RESILIENCY?

The ability to prepare for and adapt to changing conditions and withstand and recover rapidly from disruptions.

When schools lose water or power in emergency situations they must have a plan to protect students and teachers. In dangerous conditions or under extreme weather conditions, LEAs must figure out how to best recover quickly or allow students to be dismissed to parents and guardians in particularly chaotic conditions.

There are ways to better protect your campus through energy and water practices and installations that will give you more time to recover. Schools are learning that they do not have to be held hostage to wind, fire and seismic occurrences.

## TOPICS TO INCLUDE

- Proposition 39 Budget and Program Updates
- District Case Studies
- How to Build in Battery Storage
- State Water Regulations: School Impacts
- Utility Rate and Rebate Information
- Legislative Actions and Advocacy for 2018
- Zero Net Energy

## LOGISTICS

Continental breakfast and lunch are included.

*The School Energy Coalition (SEC) is an advocacy organization focused on best practices for K-14 school projects to save energy and general fund dollars. SEC led the fight to ensure Proposition 39 funding was focused on K-14 school energy efficiency/renewable projects, and in 2017 successfully advocated for the continuation of the program, and continues to represent schools statewide in discussions on energy and water conservation, infrastructure, as well as Green Building Codes and Title 24.*
